

VEHICLE PROTECTION THAT YOU'LL SWEAR BY — NOT AT!

**DOWC® products are designed to help
you safeguard your investment.**

Leasing a new vehicle is one of the most significant financial decisions you'll ever make. So it's a smart idea to talk to your dealer about coverage that can protect you from unplanned expenses.

DOWC's specialized coverage and protection products, offered through your selling dealer, are designed to shield you against the expense and inconvenience of unexpected repairs.

**IF YOU HAVE ANY QUESTIONS, DON'T HESITATE
TO ASK YOUR DOWC® PARTNER DEALER.**

Administered by*:

*Assured Provider Services, Inc. serves as the administrator in CA, CT, FL, OK, WA, and WI. For more information, call 1.860.415.4608.

Limitations of Coverage:

The information in this brochure is intended to provide only an outline of the coverage that may be available to you, as well as the potential exclusions and limitations of the NitroShield™ Product Limited Warranty. This brochure does not constitute an agreement between you and the administrator, the provider, or the selling dealer. For exact coverage, exclusions, and limitations, please refer to your NitroShield Product Limited Warranty.

TERMS, CONDITIONS, AND COVERAGE ARE SUBJECT TO CHANGE AT ANY TIME. NOT ALL COVERAGE IS AVAILABLE IN ALL AREAS AND COVERAGE MAY VARY BY STATE. COVERAGE IS OPTIONAL AND IS NOT REQUIRED TO OBTAIN FINANCING.

NITROSHIELD™

TIRE PROTECTION & WHEELSHIELD™ PROTECTION

PEACE OF MIND WHERE THE RUBBER MEETS THE ROAD.

NitroShield™ is more than a better way to put air in your tires. It's a complete tire and wheel protection system that makes your car safer, more efficient, and better looking!

Even though all new cars built since 2008 are equipped with a tire pressure monitoring system (TPMS), a study showed that **42% of American drivers cannot identify the TPMS dashboard warning symbol.** Plus, TPMS warning lights only come on when one or more of the tires is already 25% underinflated. Problems can occur much sooner than that, which is why NitroShield is such a smart idea.

IMPROPER TIRE INFLATION CAN LEAD TO ANY NUMBER OF PROBLEMS, INCLUDING:

- Uneven and/or accelerated tire wear
- Lower fuel efficiency
- Unpredictable handling
- Wheel damage
- Catastrophic tire failure

START ROLLING WITH A NITROSHIELD™ NITROGEN FILL

There's a reason why commercial aircraft and race cars use nitrogen to fill their tires — for starters the larger nitrogen molecules are slower to leak out, which means proper inflation pressure can be maintained longer. Additionally, nitrogen is an inert gas, so it does not react with the rubber of the tire.

Another benefit of NitroShield is that during the fill process, the existing air and moisture inside the tire are purged, so the inside of the nitrogen-filled tire remains drier. This inhibits oxidation of the metal wheel and makes for a more stable operating environment regardless of variations in temperature.

INCLUDES WHEELSHIELD™ PROTECTION

A cleaner, more durable wheel begins here.

Because tires and wheels work together, NitroShield is bundled with WheelShield, a class-leading, professionally applied wheel treatment that protects the painted and clear-coated surfaces of alloy and steel wheels. WheelShield's nano-technology also prevents the buildup of brake dust, for cooler operation and a lasting shine.

Both NitroShield and WheelShield are backed by warranties that provide for the repair, refurbishment, cleaning, and/or replacement of any covered parts. What's more, there is zero deductible for these services if they are covered.
